

## WASTE MANAGEMENT REPORT

<b>HOTEL MOGÁN PRINCESS ****</b>							
<b>WASTE MANAGEMENT</b>							
<b>2014 → 2015 → 2016 → 2017</b>							
	<b>Capacity 212 rooms</b>	<b>Total in Kg</b>			<b>Waste Production in Kg per guest per night</b>		
	<b>Occupancy</b>	<b>Paper/Cardboard</b>	<b>Organic</b>	<b>Other</b>	<b>Paper/Cardboard</b>	<b>Organic</b>	<b>Other</b>
<b>2014</b>	<b>156.424</b>	<b>20.938</b>	<b>481.270</b>	<b>33.645</b>	<b>0,134</b>	<b>3,07</b>	<b>0,215</b>
<b>2015</b>	<b>223.548</b>	<b>17.640</b>	<b>154.322</b>	<b>15.650</b>	<b>0,079</b>	<b>0,69</b>	<b>0,070</b>
<b>2016</b>	<b>234.896</b>	<b>15.470</b>	<b>138.628</b>	<b>14.390</b>	<b>0,066</b>	<b>0,59</b>	<b>0,062</b>
<b>2017</b>	<b>244.076</b>	<b>15.710</b>	<b>136.880</b>	<b>14.410</b>	<b>0,065</b>	<b>0,56</b>	<b>0,059</b>

The Mogán Princess hotel, with a capacity of 212 rooms and offering All Inclusive only, has generated the above quantities of non-hazardous waste. This waste can be divided into the following categories:

- Paper/cardboard
- Organic waste
- MSW (municipal solid waste)

This waste is generated by the daily activity of our customers and mainly by the different departments of the hotel: restaurant, kitchen, housekeeping, reception, administration, etc.

Regarding the **organic waste**, I must say that the data for the year 2014, which seem exaggerated compared to the following, are the result of a different registration procedure, by which garden waste was recorded as organic.

As of 2015, they stopped being added up and since that year, organic waste refers exclusively to the waste generated by food.

The pruning (green waste) is not weighed and it is withdrawn by the municipal collection services for its treatment.

The significant reduction in **cardboard waste** was due to the application of new savings measures through the purchase in bulk and the reduction of packaging whenever possible.

Among **urban solid waste** (MSW), aluminum cans and plastic bottles are counted. The great reduction achieved in this type of waste, was due to the progressive implantation of the bag-in-box or drink service by tap.

Although hotel occupancy has grown year after year, the production of waste has continued to decline, although it is a challenge to find ways to maintain that trend.

At Mogán Princess, we are very proud of the results achieved, but we remain focused on studying measures to continue reducing our carbon footprint and making our business more sustainable.

We are committed to sustainable development and environmental conservation and therefore we will insist on the actions we develop to reduce, reuse and recycle our waste:

### Reduce

- Reduce the amount of plastic bags we use by eliminating them from rooms and communal areas.
- Reduce cardboard package by enforcing our suppliers to bring reusable boxes
- Reduce packaging waste by purchasing in bulk.

### Reuse

- Reuse plastic sprayer bottles for cleaning products.
- Reuse old linen and turn them into napkins.
- Reuse storage containers

And of course, continue to improve our recycling efforts.

**IN 2017, WE REDUCED THE GENERATION OF NON-HAZARDOUS WASTE BY 0.9% COMPARED TO 2016, BUT THE % OF WASTE REDUCTION PER CLIENT PER DAY WAS 4.8%. OUR GOAL FOR 2018 WILL BE TO REDUCE WASTE, AT LEAST, BY THE SAME PERCENTAGE AS IN 2017.**
